MCN's mission is to provide the most timely, relevant information to nurses practicing in perinatal, neonatal, midwifery, and pediatric specialties.

MCN is a peer-reviewed journal that meets its mission by publishing clinically relevant practice and research manuscripts aimed at assisting nurses toward evidence-based practice. MCN focuses on today's major issues and high priority problems in maternal/child nursing, women's health, and family nursing with extensive coverage of advanced practice healthcare issues relating to infants and young children.

Each issue features peer-reviewed, clinically relevant articles. Coverage includes updates on disease and related care; ideas on health promotion; insights into patient and family behavior; discoveries in physiology and pathophysiology; clinical investigations; and research manuscripts that assist nurses toward evidence-based practices.

Impact Factor: .94
ISI JCR Ranking: 70/114 (NURSING)
