Clinical Journal of Pain, The

Explores all aspects of pain and its effective treatment, bringing readers the insights of leading anesthesiologists, surgeons, internists, neurologists, orthopedists, psychiatrists and psychologists, clinical pharmacologists, and rehabilitation medicine specialists.

This peer-reviewed journal presents timely and thought-provoking articles on clinical dilemmas in pain management; valuable diagnostic procedures; promising new pharmacological, surgical, and other therapeutic modalities; psychosocial dimensions of pain; and ethical issues of concern to all medical professionals. The journal also publishes Special Topic issues on subjects of particular relevance to the practice of pain medicine.
