

Drug Information Full Text (DIFT)

Ovid

**Two-Book Package of *AHFS Drug Information* and
The Handbook on Injectable Drugs Available on Books@Ovid**

- Provide users with instant online access to two of the most important reference books in pharmacology and pharmaceutical research
- Automatically receive the latest editions when they become available
- Easily integrate Books@Ovid resources with your institution's other book, journal, and databases holdings
- Take advantage of OvidSP's powerful search functionality, time-saving workflow tools, and intuitive interface
- Ask your Ovid Account Representative about the Databases@Ovid version
- Download MARC Records for your OPAC

Quick, easy access to accurate and up-to-date drug information is critical for professionals, researchers, and students in drug development, pharmacology, and pharmaceutical science.

Drug Information Full Text (DIFT) is now available on Books@Ovid as a package of two premier drug references—the latest editions of *AHFS Drug Information*, a comprehensive, unbiased, and evaluative drug reference, and the *Handbook on Injectable Drugs*, a leading source for precise drug stability and compatibility information, both published by the American Society of Health-System Pharmacists (ASHP).

Why DIFT on Ovid?

- Simultaneous searching of books, journals, and databases
- Flexible search and browse options—from Advanced Search, which allows controlled vocabulary searching to Basic Search, for quick searches that return relevance-ranked results
- Fully integrated with other ebooks in pharmacology and pharmaceutical science on Ovid, including the latest editions of *Martindale: The Complete Drug Reference* and *Harrison's Principles of Internal Medicine*
- Flexible access options—also available on Databases@Ovid

*See page 2 for more details on the latest editions of
AHFS Drug Information and *The Handbook on Injectable Drugs*.*

Think Fast, Search Faster with OvidSP

Designed for speed, simplicity, and precision, OvidSP incorporates new time-saving workflow tools, an intuitive interface, and sophisticated search technology for a simpler, more streamlined search experience.

- Choose from multiple search modes, including Basic Search, with natural language processing, Advanced Ovid Search, and more
- Take advantage of journal eTOCS and AutoAlerts delivered via RSS, search results annotations, flexible search results sorting, inline abstracts, and more
- Use everyday natural language to search seamlessly and retrieve relevance-ranked results
- Search simultaneously across databases, journals, and books

DIFT on Ovid combines the latest editions of two of the most trusted pharmacology and pharmaceutical science references.

AHFS Drug Information

- Over 40,000 represented medicines and over 100,000 drug products
- Over 70,000 uniquely cited references
- Information on drug interactions; adverse reactions; cautions and toxicity; therapeutic perspective; specific dosage and administration information; preparations, chemistry, and stability; pharmacology and pharmacokinetics; and contraindications
- Extensive off-label usages
- Peer reviewed by over 500 medical scientists, physicians, pharmacists, pharmacologists, and other professionally qualified individuals that go beyond FDA approved labeling
- Only well-established, referenced laboratory test interferences
- Recommended or officially recognized by a number of governmental and industry associations in the United States, including the U.S. Public Health Service, Department of Veterans Affairs, National Association of Boards of Pharmacy, National Association of Boards of Pharmacy, Health Insurance Association of America, the U.S. Congress, and Centers for Medicare and Medicaid Services
- Included in the United States' National Association of Insurance Commissioners Health Carrier Prescription Drug Benefit Managed Model Act as a standard reference compendium for medical and scientific evidence
- Approved by the American Pharmaceutical Association, the American Health Care Association, the American Hospital Association, and the Catholic Health Care Association of the United States

Handbook on Injectable Drugs

- Ideal for use in clinical situations
- Organizes and summarizes the results of primary research on drug stability and compatibility
- Includes vital data on over 370 drugs
- Drug names follow the style of the *USP Dictionary of Drug Names*
- Answers frequently asked questions regarding the preparation, storing, and administration of injectable drugs
- The section on "Products" lists the sizes, strengths, volumes and pharmaceutical forms along with the other components of the formulation and instructions for reconstitution
