## *Midwifery Digest, MIDIRS Informed Choice, and Maternity and Infant Care Available on OvidSP*

- Provide users with access to premier, current research material from a leading international source of information in pregnancy, childbirth, and the midwifery profession
- Search journal, book, and database content simultaneously
- Choose the right search tool for your search—from controlled vocabulary searching to natural language processing for quick, relevance-ranked results
- Take advantage of OvidSP's time-saving workflow features, including inline abstracts, AutoAlerts and journal eTOCS delivered via RSS feed, flexible search results sorting, and more

OvidSP now offers the *MIDIRS Midwifery Digest* journal and the *MIDIRS Informed Choice* ebook content, along with the *Maternity and Infant Care* database on OvidSP, Ovid's industry-leading precision search and discovery platform.

### ***MIDIRS Midwifery Digest***

*MIDIRS Midwifery Digest* on OvidSP is an essential publication consisting of news, reviews, original articles and reprints of the best midwifery information from selected journals, websites, books, pamphlets, government reports, conference proceedings and other sources.

Articles are highlighted for use as part of a professional portfolio, providing an opportunity to:

- Maintain and plan CPE
- Reflect on practice and examine local policies and procedures
- Promote discussion with colleagues

### ***MIDIRS Informed Choice***

*MIDIRS Informed Choice* on OvidSP provides a collection of leaflets, each one an objective appraisal of the best available scientific evidence relating to a key topic in pregnancy, childbirth and postpartum, with a version for the expectant mother and a related version for the healthcare professional.

Each of the topics for women is factual and presented in an easy-to-read format to help expectant mothers understand their choices, consider their options, and be supported in making informed decisions. The professionals' versions are fully referenced and designed as the basis for best practice, to open up and guide discussion, and as an aid to evidence-based clinical decision-making.

Core resources from MIDIRS, a leading international information resource on childbirth and infancy, available on OvidSP.

### Maternity and Infant Care

Both in training and in practice, healthcare professionals supporting women during pregnancy and following childbirth are already using the Maternity and Infant Care database on OvidSP. Physicians, clinicians, researchers, and students can search more than 130,000 references to articles from more than 550 journals, books, reports, pamphlets, press releases, and more. Produced by MIDIRS, the database goes back to 1973 and spans a wide range of subject areas, including pregnancy, labour, birth, neonatal and postnatal care, and the midwifery profession.
