

CABI Book Collections

Ovid

7 cost-effective collections of more than 400 current and archive books in agriculture, food and animal science, and related disciplines

- Quickly and easily build your institution's ebook offerings in agriculture, veterinary science, plant science, food science, environmental science, and tourism
- Take advantage of non-subscription access and pricing for the CABI Archive Collection
- Provide your users with the streamlined, productive search and discovery experience of OvidSP
- Enjoy cost-effective collection pricing
- Simultaneously search books with journals and databases
- Download MARC records for your OPAC

At Ovid, we make your collection development activities easier, with vital ebooks organized into focused subject collections.

CABI is one of the world's leading sources of full-text scholarly literature in agriculture, public health, development, and food and environmental sciences. Ideal for scientists, faculty, students, and policy advocates, each of the following collections is available via Books@Ovid on OvidSP, the world's leading precision search and discovery platform.

Choose one of six subject-specific collections, each consisting of books published since 2005 and available for an annual subscription, or the CABI Archive Book Collection 2000-2004, available for one-time purchase for perpetual access on Ovid.

Select one or more collections and instantly expand your electronic text holdings.

CABI Agriculture Book Collection

A comprehensive package of 52 titles covering everything from fisheries and aquaculture to GM and organic food to agricultural policy and public health.

CABI Animal & Veterinary Science Book Collection

One-click access to 48 books covering numerous animal types—from mammals to insects to amphibians—as well as important issues surrounding the production and care of livestock.

See page 2 for details on additional collections. Ask your Ovid Account Representative for a complete list of books in each collection.

OvidSP: Flexible, Precise, Innovative.

OvidSP is transforming how users search, with breakthrough technology and powerful, flexible workflow tools, empowering you to search the way you want.

- Choose from multiple search modes, depending on what you're looking for and how you like to search
- Use everyday natural language to retrieve relevance-ranked results
- Streamline workflow with customized search refinement, alerting, and results management tools
- Search simultaneously across journals, books, and databases
