

LWW Doody's Core Title Collection 2009

Ovid

198 Lippincott Williams & Wilkins books in health science, medicine, and nursing recommended by healthcare professionals and medical librarians

- Offer users access to trusted resources recommended by practitioners and librarians in medicine and healthcare, and published by one of the world's most prestigious publishers
- Quickly and cost-effectively build your institution's ebook portfolio
- Take advantage of purchase pricing, which gives you unlimited, perpetual access to books on Books@Ovid
- Search books simultaneously with journal and database resources
- Use natural language processing to generate relevance-ranked results
- Download MARC records for any book for your OPAC

Each of these 198 books has been selected by academically-affiliated healthcare professionals and medical librarians as must-have resources for students and professionals in a given discipline.

Doody's Core Titles™ is recognized as the replacement for the Brandon/Hill Select List of recommended titles for institutional purchase. A Core Title is a book that represents essential knowledge needed by professionals or students in a given discipline. Up to three librarians score each title on a scale of 0-3 in five fundamental collection development criteria: authoritativeness of author and publisher; scope and coverage of the subject matter; quality of content (including timeliness); usefulness and purpose; and value for money. Scores are averaged to provide an overall score for each title.

Doody's Core Titles™ is a publication of Doody Enterprises, Inc., publishers of Doody's Review Services™, the world leader in providing authoritative and expert quality assessments of medical, nursing, and allied health books and software. For information on Doody's Core Titles™, visit www.doody.com/dct.
