- Take advantage of OvidSP's powerful search functionality, time-saving workflow tools, and intuitive interface
- Learn more about database archive offerings, with access to abstracts and bibliographic data of pioneering scientific research

At Ovid, we offer more than 100 core and niche databases—from MEDLINE®, PsycINFO®, and Embase® to AMED, HaPI, and Maternity and Infant Care—to support the breadth of research needs in a wide range of disciplines, from clinical medicine and pharmacology to engineering and religious studies.

The powerful combination of Ovid's rich database implementation with OvidSP's advanced search features, natural language processing, sophisticated linking technology, and customizable display options, offer a unique, integrated database solution ideal for all users at your institution.

Why Databases@Ovid?

- Proprietary precision mapping technology easily "maps" a search term to the controlled vocabulary of each database
- Thesaurus and TREE displays allow users to focus or broaden their searches
- Multi-file searching across databases, journals, and books simultaneously
- Automatic elimination of duplicate results
- Customizable links to all available full-text holdings (Links@Ovid)
- Saved searches delivered via RSS feed or AutoAlert email
- Advanced limiting functionality that streamlines search results
- Ovid Jumpstarts—email "shortcuts" that take users directly into a specific point in a database
- Seamless linking to relevant free full text and Internet resources
