- Take advantage of purchase pricing, which gives you unlimited, perpetual access to books on Books@Ovid
- Search books simultaneously with journal and database resources
- Use natural language processing to generate relevance-ranked results
- Download MARC records for any book for your OPAC

Collections are a convenient, cost-effective way to build your portfolio of electronic books. These 51 books are Doody's Core Titles that have been recommended as essential purchases for institutions—especially those with limited budgets—seeking to expand their medical resource portfolio.

What's a Doody's Essential Title?

Since 2004, Doody's Core Titles™ has been the recognized replacement for the Brandon/Hill Select Lists of medical, nursing, and allied health books. Essential Titles are the Core Titles that librarians consider must-have for institutions with even the most limited budgets. Up to three librarians, working independently, select and score the titles in each specialty and then select the titles they consider essential. In order for a title to be designated an Essential Title, it has to be selected by at least two of the librarians working on the specialty.

Doody's Core Titles™ is a publication of Doody Enterprises, Inc., publishers of Doody's Review Service™, the world leader in providing authoritative and expert quality assessments of medical, nursing, and allied health books. For information on Doody's Core Titles™, visit www.doody.com/dct.

Did You Know?

- Nearly 20 subject areas in key medical and health science specialties are covered—from cardiology and critical care to nursing and neurology
- All 51 Essential titles are the LWW Doody's Core Titles that librarians consider absolute necessities for small libraries
- If you purchased the 2009 LWW Essential Collection, you can upgrade to the 2010 and enjoy great savings
- Ovid also offers the **LWW Doody's Core Collection 2009**. Ask your Ovid Account Representative and expand your collection offerings!

See page 2 for a complete list of books in the collection.

OvidSP

Transforming Research into Results.

OvidSP is your complete online research solution, offering a single online destination where you can search, discover, and manage the critical information you need to streamline your research productivity and your work.

- Work the way you want to work with a variety of search modes and customizable work productivity and content alerting tools
- Save and manage critical research findings and documents in a dedicated work area—**My Projects**
- Extend your Ovid research experience beyond OvidSP with the **Ovid Toolbar**
- Search all Ovid resources—books, journals, and databases—simultaneously with just one query
