

Journals@Ovid

Ovid

**Current, Peer-Reviewed Journals
in a Range of Subject Areas
from the World's Leading Publishers**

- Uncover current, research material in medicine, nursing, science, and other subject areas from LWW, Adis, Nature, Wiley-Blackwell, Oxford University Press, AHC Media, BMJ, and more
- Choose single titles or cost-effective, convenient collections
- Select titles available electronically prior to print publication
- Add journal archives, for groundbreaking foundational scientific literature
- Take advantage of OvidSP's powerful search functionality, time-saving workflow tools, and intuitive interface
- Easily integrate your Journals@Ovid resources with your institution's Ovid and non-Ovid journal, book, and database holdings

With a growing list of nearly 1,200 premium titles, Journals@Ovid gives you a unique combination of content currency, content quality, and access options so you can create a customized electronic journal solution that's perfect for your institution.

Ovid offers the best selection of current, core journal content in medicine, nursing, and science. Plus, with OvidSP, users can simultaneously search journal content with books and databases using natural language processing or advanced search tools.

Why Journals@Ovid?

- One-click access to 100% searchable full text (except PDF-only journals), including every word, every graphic, and every caption
- Current content; no embargoed journals*
- Time-saving workflow tools like inline abstracts, search results annotations, flexible search results sorting, and more
- Downloadable MARC Records for any journal for your OPAC
- Electronic tables of contents (eTOCS) delivered via RSS feed or email
- Access to all Journals@Ovid tables of contents and abstracts for every subscription, from one title to hundreds
- PayPerView for journal articles, so users get access to specific content they need
- PayPerView Deposit Accounts: set up a convenient debit account to manage user access to individual journal content
- Intuitive, seamless journal browsing and searching capabilities

*With the exception of the journal Science.

See page 2 for a list of key journals available from Ovid.

OvidSP: Flexible, Precise, Innovative.

OvidSP is transforming how users search, with breakthrough technology and powerful, flexible workflow tools, empowering you to search the way you want.

- Choose from multiple search modes, depending on what you're looking for and how you like to search
- Use everyday natural language to retrieve relevance-ranked results
- Streamline workflow with customized search refinement, alerting, and results management tools
- Search simultaneously across journals, books, and databases
