Each of these 206 books has been selected by academically-affiliated healthcare professionals and medical librarians as must-have resources for students and professionals in a given discipline.

Doody's Core Titles™ is recognized as the replacement for Brandon/Hill Select lists of recommended titles for institutional purchase. A Core Title is a book that represents essential knowledge needed by professionals or students in a given discipline. Up to three librarians score each title on a score of 0-3 in five fundamental collection development criteria: authoritativeness of author and publisher; scope and coverage of the subject matter; quality of content (including timeliness); usefulness and purpose; and value of money. Scores are averaged to provide an overall score for each title.

Doody's Core Titles™ is a publication of Doody Enterprises, Inc., publishers of Doody's Review Services™, the world leader in providing authoritative and expert quality assessments of medical, nursing, and allied health books. For information on Doody's Core Titles™, visit www.doody.com/dct.

What Do the Scores Mean?

Title scores provide collection development specialists with another way to compare core titles within a given specialty.

- A score of "3" signifies "excellent"
- A score of "2" means "very good"
- A score of "1" means "good"
