Traditional Chinese and Complementary Medicine Resources from Chinese and Global Publishers Available on OvidSP

Originating in ancient China, Traditional Chinese Medicine (TCM) has continued to evolve over the centuries and has even extended globally – far west of East Asia. Practitioners effectively use herbal TCM methodologies to treat a wide range of conditions including:

- Obesity
- Diabetes and its complications
- High cholesterol
- Depression
- Arthritis
- Male and female fertility disorders
- Alzheimer's disease
- Parkinson's disease
- Digestive disorders
- And more

OvidSP enables your patrons to search, browse, and manage results of several hundred TCM resources with a single query. Practitioners, clinicians, students, and researchers that adopt TCM therapies can quickly uncover the critical information they need for their medical studies, professional development and ability to improve patient care.

Why Traditional Chinese Medicine on OvidSP?

- Premium full-text and bibliographic content covering specialized areas in TCM: herbal medicine, acupuncture, Tuina massage and other methodologies
- One-click access to core TCM resources from People's Medical Publishing House, People's Military Medical Digital Press, LWW, Elsevier, and other prestigious global and local publishers
- Simultaneous searching of highly-ranked books, non-embargoed journals and comprehensive databases with just a single search query

Highly-Ranked Content That Practitioners Want

Anatomical Illustration of Acupuncture Points

People's Medical Publishing House

With full-photos and illustrations, this extensive text book provides precise location points for an accurate practice of acupuncture. This book contains historical origins of practice as well as modern methods.

Vascular Surgery: Therapeutic Strategies

People's Medical Publishing House

Bringing together the best, current strategies for therapeutic and clinical practices, this manual provides a comprehensive exploration of vascular treatment options.

Contemporary Medical Acupuncture

Higher Education Press

As a respected resource within the field, this book has covered both classic and modern theories and therapy that acupuncture practitioners and students will experience in their studies and working environment.

Illustrations of Acupoint Locating Manual

Shanghai Scientific and Technical Publishers

Providing approaches to quickly locate accurate acupoints, this reference is ideal for acupuncture practitioners, TCM college students, and acupuncture fans from both home and abroad.

Practical Foot Reflexology

People's Military Medical Digital Press

An easy-understanding book with sufficient illustrations introducing the mechanism, manipulation, indication and contradictions of foot reflexotherapy. Treatments of 29 common diseases by foot reflexotherapy are discussed. The book is suitable for TCM practitioners and massage therapists.

Key TCM Publishers

People's Medical Publishing House (PMPH)

People's Medical Publishing House offers a global approach to medicine with publishing houses residing in both China and the United States. PMPH has a vast wealth of medical publications and published over 1400 TCM books in the last 50 years.

Higher Education Press (HEP)

Higher Education Press is a primary publisher of course materials for higher and vocational education markets in China. With more than 2,400 new titles in 2010 and a distribution of over 110 million print copies, HEP continues to be one of the leading publishers in the China medical publishing market.

People's Military Medical Digital Press (PMMDP)

People's Military Medical Digital Press is a leading national medical publisher in China and is owned by the General Logistics Department, Chinese PLA. In 2010, they produced over 1,200 new titles and are increasing exponentially every year.

Shanghai Scientific and Technical Publishers (SSTP)

Shanghai Scientific and Technical Publishers is one of the originators of TCM publishing in China. They are ranked within the top Scientific Technical Medical (STM) publishers in the region and published over 600 new titles in the past year.

Apart from these publishers, OvidSP contains TCM content from top global publishers including Lippincott Williams & Wilkins, Elsevier, Jones & Bartlett, World Scientific Publishing and more!

Additional TCM Chinese-language content, including well-known publishers such as PMPH, is available on OvidChinese.
