Putting research into practice

Putting Research Into Practice

OvidMD's core package and extended core package offer comprehensive tools and content specifically selected for clinicians. If you already have OvidSP, OvidMD gives you even more by automatically searching the most clinically relevant journals, books and databases from your existing OvidSP holdings.

OvidMD

OvidMD core offers a unique standalone package that searches across the following content and allows physicians to earn CME in the process:

Full-Text Journal Articles

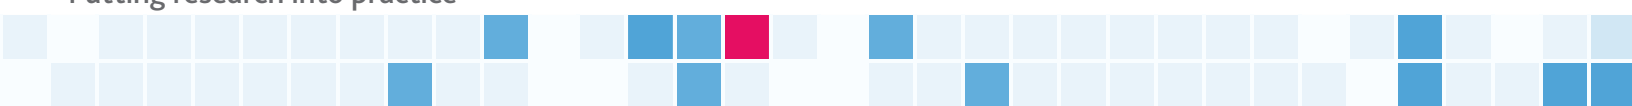

OvidMD focuses on the most current clinical information by giving you a 2 year rolling archive of 11 of the most popular Current Opinion journal titles from Lippincott Williams & Wilkins.

Current Opinion in Cardiology
Current Opinion in Endocrinology, Diabetes & Obesity
Current Opinion in Gastroenterology
Current Opinion in Hematology
Current Opinion in Infectious Diseases
Current Opinion in Nephrology & Hypertension

Current Opinion in Obstetrics & Gynecology
Current Opinion in Oncology
Current Opinion in Pediatrics
Current Opinion in Pulmonary Medicine
Current Opinion in Rheumatology

UpToDate®

UpToDate is dedicated to synthesizing knowledge for clinicians and patients. OvidMD plays a key role in expanding and supporting that knowledge. OvidMD searches across more than 9,000 topics in 17 specialties and includes a Topic Preview of the Full-Text for all OvidMD customers and a link out to the Full-Text for those with current UpToDate subscriptions. UpToDate systematic reviews are updated quarterly bringing clinicians the most current reviewed medical information.

Evidence-Based Guidelines

Evidence-Based Guidelines bring evidence-based medicine into patient care. Evidence-Based Guidelines synthesize the best available evidence on diagnosis, management, and treatment of conditions that occur in primary care, inpatient and emergency department settings. They are written by physicians for physicians, updated quarterly, and recommends a course of action for diagnosis, disease management and drug therapy.

Ovid MEDLINE®

With citations from nearly 5,600 journals worldwide and thousands of daily updates, MEDLINE is trusted around the world as a current and comprehensive biomedical database. Updated daily on OvidMD and tuned to focus on the most clinically relevant articles, Ovid MEDLINE helps you put the latest medical knowledge into practice.

National Guidelines

The U.S. Department of Health and Human Services provides detailed information on clinical practice guidelines. Use OvidMD to bring those guidelines into practice by automatically searching an array of topics covering diseases & conditions, treatments & interventions, and health services and administration.

A to Z Drug Facts

A to Z Drug Facts makes it easy to find drug information using generic or brand names. Each drug monograph is divided into pharmacological and patient care considerations and includes

action, indications, contraindications, route/dosage, interactions, lab test interferences, adverse reactions, precautions/warnings, administration/storage, assessment/interventions, patient/family education.

Patient Information

OvidMD includes thousands of patient handouts including hundreds in Spanish. Topics include Cancer, Children's Health, Diabetes, Mental Health, Surgery and more. There are personalized educational materials for patients from UpToDate and RelayHealth (a division of McKesson®) to improve patient care and satisfaction. Patient handouts can be personalized by the clinicians and printed to deliver personalized information to patients.

Images

Prepare for presentations. Export to PowerPoint. Share images with colleagues and patients. With thousands of images, tables and charts available through search, OvidMD makes it easy.

Medical Calculators

MedCalc 3000 encompasses a wide array of medical calculators and decision tree analysis tools that clinicians can put into use every day.

CME

Physicians can earn AMA PRA Category 1 Credit™ through researching a clinical topic in OvidMD.

OvidMD Plus

OvidMD's extended core package searches across the OvidMD core package plus the following content:

5 Minute Clinical Consult Books

The 5-Minute Clinical Consult Book Collection features clinically-oriented ready-reference guides for quick, accurate diagnosis and appropriate treatment. The series contains titles covering the following areas of practice:

Cardiology
Emergency Medicine
Infectious Diseases
Obstetrics & Gynecology
Orthopaedics
Pain Management

Pediatrics
Primary Care and General Practice
Pulmonary Medicine
Sports Medicine
Urology
Women's Health

Each version of the collection contains titles that present searchable listings of conditions, containing description, diagnosis, treatment, and follow-up in an easy-to-use format.

Alternative Medicine

Facts & Comparisons: The Review of Natural Products is the foremost source of current natural product information for health care professionals. More than 350 in-depth monographs are included, based on scientific research, not just anecdotal information. The Review of Natural Products provides detailed information about natural products, including their botany, history, chemistry, pharmacology, medicinal uses, toxicology, and patient information. It also includes significantly documented drug interactions. It provides up-to-date, objective assessment of the latest medical and scientific studies on natural products, including medically active foods (nutraceuticals).

Transplant Library

This niche database contains evidence-based information on all aspects of solid organ transplantation. It is unique given the hand-picked transplantation content it offers. Transplant library includes over 7,500 references and over 3,500 hand-picked abstracts from conference proceedings. The Transplant Library is updated with new randomized controlled trials every two weeks—many of them ahead of print.

- Quality rating of methodology is available for most trials published since 2004
- Includes non-indexed literature, such as conference proceedings, and, where possible, records of unpublished trials
- Many of the records in the database contain abstracts and/or are linkable to electronic full text

OvidSP Customers Get Even More with OvidMD

The world's leading information search, discovery, and management solution provides professionals in science, medicine, and healthcare with a single destination for premium online content.

Full-Text Journals

Your clinically relevant full-text journal subscriptions with OvidSP are automatically searched and accessed within OvidMD, making it easier than ever for physicians to benefit from your journal collections.

Full-Text Journals Highlight

A separate subscription to Journals@Ovid titles on OvidSP enables you to access these titles from within OvidMD.

Top ranked journals provide an essential base of highly cited information that is perfectly tailored to your most discriminating research needs. Here are just a few of the hundreds of available journals:

Feigenbaum's Echocardiography, 7th Edition
Hospital Epidemiology and Infection Control, 3rd Edition

Perez and Brady's Principles and Practice of Radiation Oncology, 5th Edition

Databases

Databases you subscribe to on OvidSP can be searched within OvidMD.

Evidence-Based Medicine Reviews (EBMR)

American College of Physicians, Wiley-Blackwell

- **Cochrane Database of Systematic Reviews**
produced by Cochrane Collaboration

These reviews allow clinicians to get fast, "bottom line" answers to their most commonly-asked questions, based on a comprehensive and expert analysis of the available medical literature. Includes links to PDFs of the Topic Reviews.

- **ACP Journal Club**
American College of Physicians

The editors of ACP Journal Club screen the top clinical journals on a regular basis and identify studies that are both methodologically sound and clinically relevant. Enhanced abstracts of the chosen articles are then written, including commentaries on the applicability of these studies to clinical practice. Now available on OvidMD.
