## Novità su OvidSP

### Miglioramenti a Ovid Universal Search programmati per novembre

Ovid Universal Search, la nostra soluzione di ricerca multiplatforma, straordinaria funzionalità aggiuntiva a OvidSP (e componente centrale di Nursing@Ovid), verrà ulteriormente migliorata durante il mese di novembre. Basati sul feedback diretto del cliente e ideati in modo da migliorare la navigazione e la visualizzazione dei risultati, i miglioramenti comprenderanno: una visualizzazione integrata dei risultati non-Ovid, la deduplicazione dei risultati recuperati tramite Ovid Universal Search, collegamenti al testo completo e altri miglioramenti all'interfaccia.

Controllate la casella di posta elettronica nelle prossime settimane: riceverete ulteriori dettagli, tra cui gli screenshot di anteprima sui miglioramenti in arrivo.

### 7 Ottobre: miglioramento all'elenco A-Z delle riviste (Journals A-Z List)

Come parte di uno sforzo più ampio volto a facilitare la navigazione e migliorare la visualizzazione di Ovid LinkSolver®, il 7 Ottobre lo strumento Journals A-Z List è stato migliorato con nuove funzionalità:

- Il collegamento a una rivista da qualsiasi scheda nell'elenco A-Z List apre la rivista in una nuova finestra, in modo da permettere di tornare facilmente all'elenco
- Nella scheda Find a Journal (Trova rivista) è ora disponibile una reale ricerca per parola chiave—immettendo nel box di ricerca uno o più termini in qualsiasi ordine verrà generato un elenco di tutte le riviste i cui titoli comprendono uno qualsiasi di quei termini
- Ulteriori miglioramenti sull'ordinamento e la visualizzazione delle riviste vengono mostrati nella scheda Browse by Title (Ricerca per titolo)

Saranno presto disponibili altre informazioni sui miglioramenti in arrivo per LinkSolver e per lo strumento Links Admin.
