- Take advantage of time-saving workflow tools like inline abstracts and journal eTOCS delivered via RSS
- Downloadable MARC Records for every journal or book

More than 200 Electronic Journals, Books, and Databases Covering a Variety of Pharmacology Specialty Areas

Pharmacology plays a role in a wide variety of healthcare situations. Quick, easy access to accurate and up-to-date drug information is critical for professionals, researchers, and students in drug development, pharmacology, and pharmaceutical science—whether they're in private industry, clinical practice, or education.

From regularly updated drug pipeline databases to specialty journals on drug therapy to comprehensive drug reference textbooks, Ovid offers a wide range of electronic resources in pharmacology, pharmaceutical science, toxicology, and related subspecialties. With OvidSP, your users can uncover relevant current or historical information quickly and easily.

Core Journals, Books, and Databases in Pharmacology

The following resources are a must for any institution. For a complete list of journals, books, and databases in Pharmacology available on Ovid, visit www.ovid.com/pharmacology

Journals

CNS Drugs

Adis International

Essential information about the drug treatment of psychiatric and neurological disorders, covering topics from basic pharmacology to drugs in development.

Drugs

Adis International

The definitive journal of drugs and therapeutics, providing essential information on drugs and their place in patient management.

Journal of Clinical Psychopharmacology

Lippincott Williams & Wilkins

Offers a wide range of articles reporting on clinical trials and studies, side effects, drug interactions, overdose management, pharmacogenetics, pharmacokinetics, and more.

Pharmacogenetics and Genomics

Lippincott Williams & Wilkins

Covers genetic variation in response to drugs and other chemicals in humans and animals.

Books

Martindale's Complete Drug Reference, Pharmaceutical Press

Doody's Core Title: 2.73 – Health Sciences – Pharmacology

Updated online content on drugs and medicines used throughout the world – no other source can compare with regard to its breadth and depth of coverage.

Drug Information Full Text (DIFT), American Society of Health-System Pharmacists

AHFS: Doody's Core Title: 2.67 – Pharmacology

Handbook on Injectable Drugs: Doody's Core Title: 2.87 – Pharmacy

A two-book package consisting of the latest editions of *AHFS Drug Information*, a comprehensive, unbiased, and evaluative drug reference, and the *Handbook on Injectable Drugs*, a leading source for precise drug stability and compatibility information.

Stockley's Drug Interactions, Pharmaceutical Press

Doody's Star Rating®: 3 stars, score:84; Doody's Core Title: 2.8 – Pharmacy

Online updated content includes over 3,400 detailed monographs covering interactions between therapeutic drugs, proprietary medicines, herbal medicines, foods, pesticides, and drugs of abuse.

Drug Facts and Comparisons, Pocket Version, Facts and Comparisons

Doody's Star Rating®: 5 stars, score: 97

Abridged from *Drug Facts and Comparisons*, this handy pocket version allows you to confirm critical drug information immediately in a quick-reference format.

Databases

Clinical Trials Insight, Adis International

Provides alerts and assessments of clinical trials as they are announced, presented and published in approximately 2,000 journals, over 150 meetings, and hundreds of media releases.

International Pharmaceutical Abstracts, Thomson Scientific

Provides worldwide coverage of pharmaceutical science and health related literature from 1970 to the present, and is updated monthly. Comprehensive information is included for drug therapy, toxicity, and pharmacy practice as well as legislation, regulation, technology, utilization, and more.

R & D Insight, Adis International

A leading source of drug pipeline information, *R&D Insight* monitors all pertinent aspects of a drug's life cycle.

IMS Patent Focus, IMS Health

Includes over 115,000 patent records and shows the product patent position for over 3,000 patent families with CAS numbers and over 14,000 records where the mode of action is biotechnology.
