

Add the OvidSP Search Bar to your Library Pages or Intranet:

OvidSP

Search Mode: Basic ([natural language](#)) Advanced ([syntax](#))

Search:

Database:

- Journals@Ovid
- Books@Ovid
- MEDLINE
- PsycINFO

The Search Bar will then automatically return the results presented in OvidSP:

If you subscribe to any of the resources in the dropdown box as shown above, you can go to the following webpage and try the OvidSP Search Bar:

<http://demo.ovid.com/demo/ovidsp/tools/choice.htm>

It is also possible to search a combination of resources (multi-file or cross-database searching). There are a number of additional options available, like combining your searches with pre-configured Expert Searches, Filters or Ovid Universal Search resources. You may also request individual journals, books to appear on the dropdown list.

In all cases, it is required to have your gadget customized to reflect your actual subscription resources from Ovid. You may request your own personal search bar directly from your Ovid Technical Services representative that is tailored to your needs.

Please contact support@ovid.com to obtain the personalized html code for your OvidSP gadget!
