

ACC CardioSource Plus[®]

Now available from Ovid, this comprehensive educational package combines thousands of **self-assessment programs**, annual **meeting presentations**, and audio files of **heart sounds/murmurs** to support cardiologists in medical school, through residency, and on into professional practice. Produced by the highly regarded ACC—which focuses on improving cardiac care delivery and better overall heart health—content is easily accessible through a personalized online platform to everyone at your institution or practice.

*Institutional Access
to Clinically-Oriented
Educational Resources and
Board Prep from the American
College of Cardiology*

- Identify knowledge gaps or get a refresh on fundamental principles and procedures
- Prepare for Board exams in general cardiology, adult congenital heart disease, heart failure, interventional cardiology, echocardiography, or nuclear cardiology
- Earn hundreds of hours of CME/MOC as well as ECME credits
- Work toward specialty certification
- Identify and master basic and advanced heart murmur/sounds

Key Features:

- **Self-Assessment Programs**—topic-based modules covering Adult Clinical Cardiology, Interventional Cardiology, Echocardiography, Electrophysiology, and Heart Failure
- **Meetings on Demand**—presentations and highlights from the ACC's 2018 Recent Advances in Clinical Nuclear Cardiology and Cardiac CT Meeting
- **Heart Songs Library**—27 audio files of basic, intermediate, and complex heart murmurs
- Over 2,000 practice questions for evaluation and remediation
- Delivers more than 540 CME/MOC credits and nearly 500 European CME credits
- Centralized dashboard to access and manage all modules, materials, and files
- Content updated regularly!
- Currently accessible via the ACC platform

ACC CardioSource Plus®

Self-Assessment Programs

Understand and refresh core and advanced cardiology concepts, identify areas for further knowledge, and get ready for Board exams and certification.

- 5 distinct content sets: 1) ACCSAP (Adult Clinical Cardiology), CathSAP (Interventional Cardiology), EchoSAP (Echocardiography), EPSAP (Electrophysiology), HFSAP (Heart Failure)
- Nearly 2,000 practice questions aligned to society guidelines and exam blueprints
- Each topic-based module features a study guide, quiz builder, and simulated board exams
- Most module content updated in 2020
- Hundreds of case studies and thousands of echo images (EchoSAP)

Meetings On Demand

Experts who presented at the 2018 Recent Advances in Clinical Nuclear Cardiology and Cardiac CT Meeting on Demand™ take users through the latest advances and provide guidance on patient application.

- Downloadable 20-minute presentations on nuclear cardiology and cardiac CT
- Ideally suited to prepare for the Nuclear (CBNC) and/or Cardiac CT (CBCCT) Board exams
- Over 100 evidence-based cases focusing on technical and clinical problems commonly encountered in practice
- Each topic-based learning modules features a pre-test, presentations and slides, and a post-test with evaluation

Heart Songs Library

Everything you need to acquire and fine-tune cardiac auscultation skills!

- 27 downloadable, 5-7 minute audio (mp3) files
- Includes basic, intermediate, and expert and adult congenital sounds
- 200 repetitions of each murmur to increase identification and recall
- Each audio file features key auditory characteristics and handheld echo findings
