

LWW Doody's Core Collection 2019

Each of these 215 books from premier publisher, Lippincott[®], has been selected by academically-affiliated healthcare professionals and medical librarians as must-have resources for students and professionals in a given discipline—receiving the distinction of a Doody's Core Title.

A Core Title is a book that represents essential knowledge needed by professionals or students in a given discipline. Up to three librarians score each title on a score of 0-3 in five fundamental collection development criteria: authoritativeness of author and publisher; scope and coverage of the subject matter; quality of content (including timeliness); usefulness and purpose; and value of money. Scores are averaged to provide an overall score for each title.

Doody's Core Titles[™] is a publication of Doody Enterprises, Inc., publishers of Doody's Review Services[™], the world leader in providing authoritative and expert quality assessments of medical, nursing, and allied health books. For information on Doody's Core Titles[™], visit www.doody.com/dct.
