

JBI Evidence-Based Practice Resources

Healthcare professionals and institutions around the world strive to provide the highest quality care to their patients.

JBI's evidence-based practice model is considered a benchmark in the healthcare industry. By using the latest evidence obtained through research, professional practice and patient preference along with JBI's unique suite of content and tools, institutions and healthcare professionals can meet today's rigorous quality standards and improve patient outcomes.

One of the World's Leading Providers of Evidence-Based Information—Exclusively Available on Ovid

- Content and tools that will help your institution implement evidence-based practice
- Systematic reviews, recommended practices, evidence summaries, and more
- Evidence to inform clinical practice—derived from JBI's global collaborating centres of excellence in 40+ countries
- Resources designed to help assess the quality of research

Why JBI EBP Resources on Ovid?

- Evidence-based content and tools from a leading evidence-based practice organization—only available on Ovid
- Summarized research in a format that is easy to locate, understand, and distribute
- High-quality resources designed for busy professionals who need to evaluate the best available evidence quickly
- Improved patient outcomes by extending the reach of clinical practice guidelines tailored for your institution or community

How to Make Evidence Actionable

JBI Evidence Synthesis

An international peer-reviewed, online journal that publishes manuscripts encompassing evidence synthesis and healthcare. JBI Evidence Synthesis seeks to disseminate rigorous, high-quality research that provides the best available evidence to inform policy and practice through the science and conduct of systematic and scoping reviews.

The journal publishes systematic and scoping review protocols, diverse types of systematic reviews, and scoping reviews covering multi-disciplinary healthcare-related topics that follow methodology and methods developed by JBI. Fully indexed in Embase®, MEDLINE®, and CINAHL®.

JBI Evidence-Based Practice Resources on Ovid®

JBI EBP Database

Information for Practice:

JBI's content database contains a unique suite of information—helping your healthcare professionals with their evidence-based practice.

- Systematic Reviews—Comprehensive systematic reviews of international research literature completed by accredited JBI reviewers
- Evidence Summaries—Rapid reviews that summarize existing international literature on health care interventions, policy, and practice topics to inform clinical decision making
- Best Practice Information Sheets—Guidelines based on JBI systematic reviews produced specifically for practicing health professionals
- Evidence-Based Recommended Practices—Procedures, based on the best available evidence, that describe and/or recommend practice on various clinical topics
- And more
