

# JB I SUMARI

**NEW  
& IMPROVED**

Think of it as a word processor, reference management program, and statistical and qualitative data analysis program all in one, easy-to-use web application.

From JB I-leaders in providing the best available evidence to inform clinical decision making!

## JB I premier software for the systematic review of literature

The System for the Unified Management, Assessment and Review of Information (SUMARI) is JB I's premier software for the systematic review of literature. It is designed to assist researchers and practitioners in fields such as health, social sciences, and humanities to conduct systematic reviews.

SUMARI is made to facilitate the entire review process, from protocol development, team management, study selection, critical appraisal, data extraction, data synthesis, and systematic review report writing. For users embarking on their first systematic review, JB I SUMARI takes the guesswork out of the systematic review process.

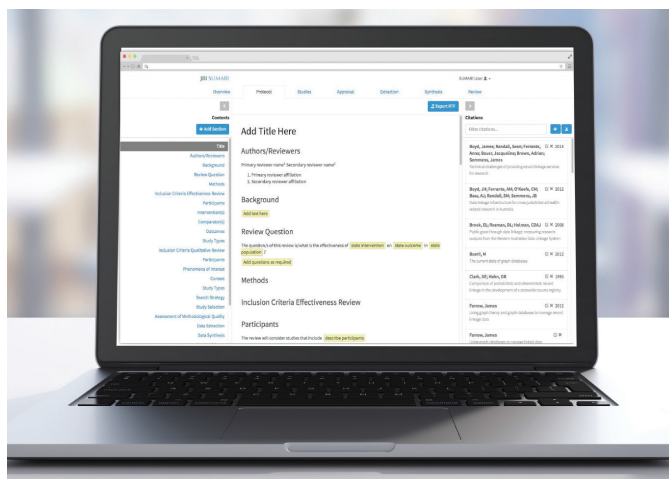

## JBI premier software for the systematic review of literature

### Why SUMARI?

*JBI SUMARI* supports the entire review process, from protocol development to writing the review report, and includes team and contributor management for effective and efficient collaboration.

### *JBI SUMARI* supports 10 different review types:

- Reviews of effectiveness
- Qualitative research
- Economic evaluations
- Prevalence/incidence
- Aetiology/risk
- Mixed methods
- Umbrella/overviews
- Text/opinion
- Diagnostic test accuracy
- Scoping reviews

Reviewers can also choose to include multiple approaches within a single review.

### Who can use SUMARI?

- Librarians
- Medical Researchers
- Physicians & Physician Leadership
- Nurses & Nursing Leadership
- Allied Health Researchers
- Academics
- CIO, System Administrators
- Biotech/Pharma Teams

#### From Protocol To Report

*JBI SUMARI* supports the entire review process, from drafting your protocol, study selection, critical appraisal, data extraction and synthesis. It also allows you to manage review teams and contributors to your review.

#### Scientific Credibility

*JBI SUMARI* is designed based upon the guidance of JBI, and as such all methods are supported and approved by the international scientific committee. SUMARI users can conduct reviews and know that they are following a sound and rigorous methodology.

#### Multiple Review Types

With *JBI SUMARI*, you can conduct standalone reviews of 10 various types (including effectiveness, qualitative and prevalence) of systematic reviews. Additionally, you can choose to include multiple approaches within a single review.
