## Ovid® Deposit Account Service

### How does it work?

1. Set up a Deposit Account with funds designated for single-article access journals.
2. Select from more than 1,200 journals that are available for Deposit Account access.
3. As each article is accessed by a user, money is seamlessly debited from that account.
4. Once the account balance reaches a minimum level, the information manager will be alerted automatically via email—the account can be replenished at any time!
5. There is no expiration date on the deposit amount.
