

# Ovid<sup>®</sup> LinkSolver<sup>®</sup>

## Your Comprehensive eResource Linking Solution

- Empower users with time-saving access to relevant full text, Open Access, OPAC, and bibliographic resources whenever they need them
- Increase usage and build awareness of your institution's library resources
- Enable users to instantly link to relevant full text resources—inside and outside your library system
- Enjoy complete administrative flexibility and responsibility managing your institution's links
- Create and customize links based on your e-resource holdings and how your users like to do their research
- Manage all defined links in one easy to use administrator interface
- Enable the Resources A-Z tool for easy book and journal browsing by numerous key criteria

Online scholarly researchers expect instant answers to critical questions. Our OpenURL link resolver, Ovid LinkSolver, connects users with Ovid full text, non-Ovid resources in your content library, as well as relevant Internet resources outside of your library system.

A single Ovid search query instantly connects you and your users to a wealth of highly relevant information resources through Ovid LinkSolver. Plus, as an administrator, you can create and manage your institution's links within a convenient, easy to use administrator interface.

### Why Ovid LinkSolver?

- Flexibility to define, organize and display links relevant to your institution
- Set up is simple and quick — upgrade today, start linking tomorrow
- Centralized link administration interface, so you can manage all your links in one location; customize the interface with your institution's branding
- Flexible configuration options for link administrators to control and customize links and link targets
- Easy to use book and journal browsing tool that allows users to also link outside of the Ovid environment to relevant information
- Global servers optimize user performance and uptime
- Ovid hosted servers, saving you time, money, and maintenance
- OpenURL compliant, with the ability to resolve DOIs and PubMed IDs (pmids)
- Award-winning global customer and technical support

Sydney, Australia  
Tokyo, Japan  
Warsaw, Poland

## Easy to Use – Even Easier to Administer!

### How LinkSolver Helps End Users

You define the scope of your electronic library, while your users enjoy navigation to a world of relevant resources. They can:

- Enjoy one-click access from bibliographic databases to books and full text journal articles
- Select journal coverage by year, volume, or issue prior to searching for more accurate linking
- Already know citation data? Instantly access journal articles using the Citation Matcher
- Limit your search to all full text available from within Ovid citations
- Link to Internet or Intranet resources, as well as governmental sites, educational institutions, local knowledgebases, and more
- Link to print resource information from your library's OPAC
- Link to document ordering suppliers and interlibrary loan systems

### How LinkSolver Supports Administrators

- Select from preset link templates, representing thousands of books and journals from primary publishers and aggregators—or create your own link sources
- Customize link names and resources, as well as the URL users go to after logging out
- Expand administration globally or restrict to a single site
- Limit searches from Ovid databases to all full text to which your institution subscribes
- Save time and effort—Ovid LinkSolver requires no PERL programming
- Upload electronic subscription lists from an OPAC or other serials management tools through Ovid's import utility
- Enjoy quick deployment—Ovid LinkSolver is set up and ready to use in no time
- Link to proxy servers for remote user access to links
- Export full text link targets in easy to use formats

### About Resources A-Z

Resources A-Z enables users to quickly browse and search their institution's e-journal and book collections using a simple, intuitive user interface. Conveniently located in the links administration interface, the tool allows you and your users to:

- Browse by A-Z title list or by subject classification
- Search by book or journal title, ISSN or ISBN; then link directly to the home site for further research and discovery

#### Plus:

- View the Resources A-Z tool in Dutch, English, French, German, Spanish, Italian, Japanese, and other languages
- Include an alternate title for journals with variant titles

### Ovid

Transforming Research into Results.

- Ovid is your complete online research solution, offering a single online destination where you can search, discover, and manage the critical information you need to streamline your research productivity and your work.
- Work the way you want to work with a variety of search modes and customizable work productivity and content alerting tools
- Save and manage critical research findings and documents in a dedicated work area—My Projects
- Extend your Ovid research experience beyond Ovid with the Ovid Toolbar
- Search all Ovid resources—books, journals, and databases—simultaneously with just one query
