Ovid® Midwifery Edge

Ovid Midwifery EDGE brings together some of the midwifery field’s most renowned journals, books, and databases, as well as tools to assess and review research evidence.

All content is accessible through Ovid Discovery, which expands information searching beyond Ovid and even your own library portal. That’s why this expansive resource is the perfect midwifery content solution—whether for clinical competency, continuing education and curriculum development, or uncovering new theoretical developments.

Why Ovid Midwifery EDGE?

• Offer full-text and bibliographic content, and content management tools through just a single search portal
• Vastly increase resource discoverability and usage of your library portal
• Identify missing content and manage e-resources more efficiently with accurate and timely usage analytics
• Minimize time and costs for training, document delivery, and resource maintenance

Key Features

• Designed for midwives in practice, education, research, and management
• Content combines 5 journals, 6 eBooks, 2 databases, and millions of bibliographic records retrieved through the Ovid Discovery index
• All content is accessible through just a single, easy-to-use portal and searchable with just a single search query
• Links to indexed and non-indexed resources—including scholarly, free, and commercial publishers and information providers
• Precision searching to help users pinpoint exactly what they need
• Available in 12 languages—Arabic, Simplified Chinese, Dutch, English (US and UK), French, German, Hebrew, Italian, Japanese, Portuguese, and Spanish
• Fully compliant with just about any mobile device

Over 100 Million Scholarly Resources for Practice, Education, Research, and Management
Ovid® Midwifery Edge

What’s Included?

Journals & Books from Lippincott and Other Premier Publishers

Bibliographic Databases & Tools

- **Maternity and Infant Care Database** – From MIDIRS, over 270,000 references on pregnancy, labor, birth, postnatal care, infant feeding, and other related topics.
- **Joanna Briggs Institute Evidence Based Practice Database** – JBI’s evidence-based practice model is considered a benchmark. Content here has been analyzed, appraised, and prepared by expert reviewers at JBI.
- **JBI SUMARI** – This systematic review support tool helps with protocol development, critical appraisal, data extraction, synthesis, and reporting, and supports 10 different review types.

Ovid Discovery Service

Perfect for users of all experience levels, this customizable search portal features a single, unified index integrates results from a vast array of content resources—not just those to which your institution subscribes—so users can uncover the research they need quickly.

Who uses Ovid Midwifery EDGE?

- **Midwives in clinical situations** who need clinically oriented information at a moment’s notice.
- **Researchers** working on short- or long-term research projects or patient care.
- **Faculty and educators** involved in basic, advanced, or continuing education curriculum development and teaching.
- **Managers** hoping to raise midwifery care standards, competency, and outcomes.
